

The 121 Platform

Digitalize your cash programmes from registration to payment

Free of charge

For Red Cross Red Crescent
National Societies
in 2026 & 2027

What can 121 do for you?

The 121 Platform helps humanitarian organizations manage cash programmes with ease. Designed by and for humanitarians, it mirrors the real workflow, from registration to payments, making it intuitive, reliable, and ready for use in diverse contexts.

The benefits of using the 121 Platform

• Easy

Effortless data management
& real-time tracking

Simple workflows, automated uploads, and collaborative case management.

• Safe

Built-in security
& data protection

Privacy-by-design architecture with protected access and role-based permissions.

• Fast

Quick to set up,
easy to scale

Set-up in 1 week, offering integrations with local FSPs, Kobo and Twilio.

What do you need to use 121?

- Internet connectivity (offline registration and validation possible)
- Hardware (basic laptops)
- Ambition for cash programming and digitalization
- A dedicated CVA IM / IT focal point

Free of charge

For Red Cross Red Crescent National Societies in 2026 & 2027

The 6-step onboarding journey

Our first discussion aims at understanding how the platform fits your processes and translates into using the system for your programmes. If there is a match, an agreement is signed between both parties so you can start using 121. Training is provided (preferably on-site), so your team is up-to-speed (this can include sessions on wider identified (CVA) IM needs). Agreements with third parties such as FSP and Data Collection Tools must be signed directly by the partner with the providers.

121 is already active in 10+ countries worldwide.
Explore one of our use cases in different contexts, using different modalities:

Sudan

Switching between modalities in one secure, shared system

Ethiopia

50,000 households supported in 3 months time

Kenya

Mobile money payments in one click

The Netherlands

Visa cards for groceries

Our team

Our team combines Information Management expertise with practical cash programming experience, offering hands-on support in data collection, data management, and platform use.

Support availability: Monday - Friday, 08:00 -18:00 CET. For urgent or after-hours support, contact our team to discuss options.

Choosing the right platform for your cash programme
